Description

A precision wide range resistance decade box designed to meet the requirements of both industry and education. The 1040 is compact and durable, housed in a robust metal case with removable protective rubber cover, making it ideal for use in either the laboratory or field. Excellent accuracy (mid-scale 0.1 %) is achieved by using high stability metal film resistors. The 8-digit thumbwheel switch enables simple and precise setting with a clear indication of the resistance value.

Switch Contacts: Special attention has been given to the reliability of operation. A special multiple gold contact arrangement ensures low contact resistance and continued operation even if a contact fails.

Clear Visual Indication: To make selecting and reading the setting easy the 1040 incorporates colour coded digits: megohms - red, kilohms - yellow, ohms - white.

Safety Terminals: Compatible with 4 mm shrouded plugs, as well as standard plugs, bare wires, and spade terminals.

Added Protection: The 1040 comes fitted with an ergonomic rubber cover providing increased protection and durability. It has a textured grip for comfortable handling and side openings to place labels. It is easy to remove if the user prefers a stand-alone unit or to house the 1040 in the optional 9026 carry case.

Residual resistance: Less than 250 mΩ.

Power rating: 1 watt per resistor.

Voltage rating: Maximum 250 V DC/AC RMS.

Temperature coefficient: 50 ppm/°C.

Dimensions / Weight: W 215 x H 100 x D 120 mm / 1 kg.

Features

- 1 Ω to 100 MΩ
- High accuracy
- Clear visual indication
- High stability
- Low temperature coefficient
- Safety terminals
- Removable protective cover
- Suitable for industry or education

Common Applications

- Calibration of resistance in measuring devices
- PT100 simulation for checking RTD transmitters
- Select-on-test resistance substitution in circuit design
- Educational understanding of Ohm’s Law

Ordering Information

1040....................Wide Range Resistance Decade Box
9026..........................Leatherette carry case
C161..........................Traceable calibration certificate (Factory)
C114..........................Accredited calibration certificate (ISO 17025)
