

Description

The Loop-Mates are single function low-cost pocket sized units, designed for test and calibration of process loops. Simplicity of operation is their key - no keypads or complicated selections. Engineers will be able to pick them up and get to work immediately. Just select 4 - 20 mA, or 10 V loop, and TxSim, RxTest, RxSim or TxTest. Both have internal loop drive supplies, which can be used to power the loop if required.

Loop-Mate 1 is the simulator and acts as a source to provide the loop signals, 4 - 20 mA or 0 - 10 V. No complicated selection of the output, just operate up/down buttons to increase or decrease the signal. There are 7 set points, 0 %, 10 %, 25 %, 50 %, 75 %, 90 %, 100 %. Each is indicated on a high brightness LED and an audible beep sounds as you step between them. Auto-stepping mode (adjustable rate) allows Loop-Mate1 to be left connected stepping up and down. The engineer can then move to another location to check (using Loop-Mate 2) that the signal is arriving correctly and is within specification.

Loop-Mate 2 is a dedicated loop signal indicator, just as easy to operate. Once again select the loop type, 4 - 20 mA, or 0 - 10 V, and whether you want the display in direct units, or % of span. The LCD display shows the signal to an accuracy of 0.05 % either in mA, V, or % of span. Both units are powered by a single standard PP3 battery that gives up to 40 hours continuous use.

Specifications

7006 Loop-Mate1

Range	4 - 20 mA, or 0 - 10 V.
Set-points	0, 10, 25, 50, 75, 90, 100% of span.
Accuracy	0.1 %.
Modes	TxSim (transmitter simulation), or RxTest (receiver test).
Loop supply	Internal, 25 mA max.
Auto-step	Up/Down/Up, 0.5, 1, 2, 4, or 8 sec/step.
Power	PP3 battery, typical life 40 hours.
Dimensions / Weight	H 140 x W 65 x D 30mm / 180 g.

Ordering Information

7006.....	Loop-Mate 1: Loop Simulator/Source
7007.....	Loop-Mate 2: Loop Signal Indicator

Features

- Simple operation, pocket sized loop diagnostic tools
- 4 - 20 mA or 0 - 10 V loops
- 7 calibration set-points
- Loop-Mate 1: Transmitter simulation and receiver test
- Loop-Mate 2: Receiver simulation and transmitter test
- Auto-Step output - adjustable rate
- Battery powered PP3 (both models)
- Internal loop drive supply (both models)
- Supplied with carry case and test leads

7007 Loop-Mate 2

Range	4 - 20 mA, 0 - 10 V, 0 - 50 V.
Display	LCD 4 digits, mA, V, or % of span.
Accuracy	0.05 %.
Modes	RxSim (receiver simulation), TxTest (transmitter test), or 50 mA/50 V measure.
Loop supply	Internal, 25 mA max.
Power	PP3 battery, typical life 40 hours.
Dimensions / Weight	H 140 x W 65 x D 30mm / 200 g.

C145.....	Traceable calibration certificate (Factory)
C144.....	Accredited calibration certificate (ISO 17025)

Calibration certificate codes apply to 7006 and 7007
