

P148 A4 Document Holder

A holder that is ideal for placing signs, certificates and other documents relevant to the CalBench workspace. The unit is A4 portrait size and positions flat to the perforated panel with 2.5 cm thickness making it non-intrusive to the table top area. This holder is commonly used for warning signs relating to the CalBench, often to ensure only authorised personnel operate the system.

- Steel portrait A4 document holder
- H 300 x W 223 x D 25 mm
- Holds certificates, signs and documents
- RAL 7035 light grey colour matches perfo panel
- Quick fix perfo lock for easy re-positioning
- A4 landscape version available upon request
- Suitable for use on the CalBench perforated panel
- Suitable for use on wall mounted perforated panels

7143 - A3 Document Holder

A document holder that is ideal for placing user manuals of devices under test on the CalBench. A3 size and angled structure means that the literature is ergonomically positioned. The user has a clear and easily visible solution for reading and reference. Other common use for the 7143 is to hold the CalBench modules user manuals, EasyCal software manual or training documents.

- Steel angled document holder
- W 450 x H 360 mm
- Holds manuals, books, catalogues, certificates and documents
- RAL 7035 light grey colour matches perfo panel
- Quick fix perfo lock for easy re-positioning
- Suitable for use on the CalBench perforated panel
- Suitable for use on wall mounted perforated panels

7133 - Magnet Set

A specially designed magnet set for use with the CalBench perfo panel, providing a solution to positioning documents and small tools. The set includes a selection of dual use round magnets that can be used to pin or hold as required. The hook magnets allow users to hang items easily and discreetly. The set can also be utilised with wall mounted perforated panels, steel notice boards and magnetic whiteboards.

- 10 off 35 mm diameter round magnets
- 10 off 12 mm diameter hook type magnets (20 mm tall)
- Used for quick fixing documents and small tools
- Neodymium magnets coated with three layers of nickel, copper & nickel
- Suitable for use on the CalBench perforated panel
- Suitable for use on wall mounted perforated panels
- Ideal for use with magnetic whiteboards and extras
