

Description

Benchtop turntables for use in the workshop or laboratory setting. Suitable for situating items for inspection, evaluation or repair and maintenance work.

Each model features a rotating and locking mechanism for ergonomic positioning of the units on the turntable. They are heavy duty featuring a stainless steel base plate, enabling high load bearing capacity.

The standard 7154 is 380 mm diameter, with an optional 500 mm diameter version available (7154-500).

ESD types are also available with conductive rubber lining and grounding cable supplied.

Ordering Information

7154

Benchtop Turntable with locking mechanism (380 mm dia)

7154/ESD

Benchtop Turntable with locking mechanism (380 mm dia)

7154-500
