

Description

The 9059 is a heavy duty, custom designed transit case for the 5025 range, providing a durable and secure transportation solution. Made of high performance materials, the case is rugged design and IP67 rated.

Features include integral wheels and extending handle that make it ideal for mobilising the 5025 when used for on-site calibration work. The internal padding is custom cut to ensure the instrument front panel is protected. The 5077 power calibrator also fits the 9059 case. Smaller transit cases for other benchtop calibrators and multimeters are available upon request.
